Abstract

The aim of the project is to develop a web-based file manager named Fileup in which the users can upload files pertaining to their use and will be able to retrieve the file whenever required.

1 Intoduction

Fileup is a storage service that enables users to store and access files online. It stores documents and photos. The files can be deleted if required. The project is built with PHP, Bootstrap, HTML, and CSS.
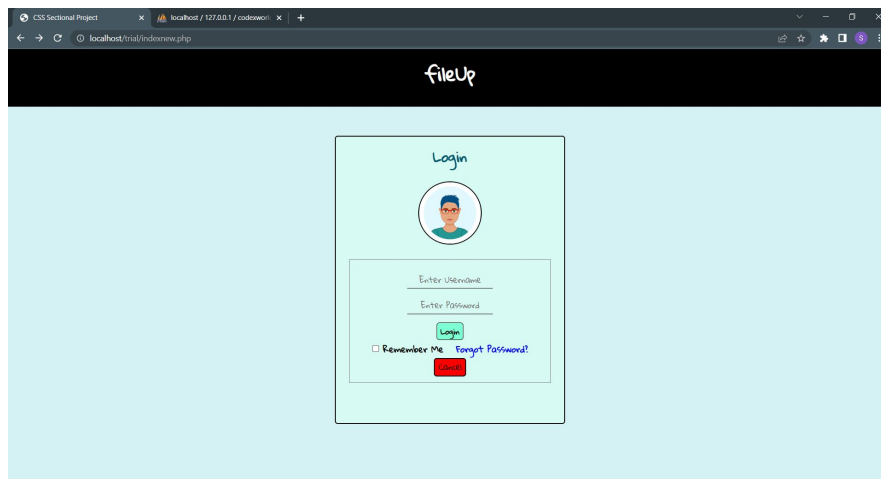

## 2 Output

Figure 1: Login Page.
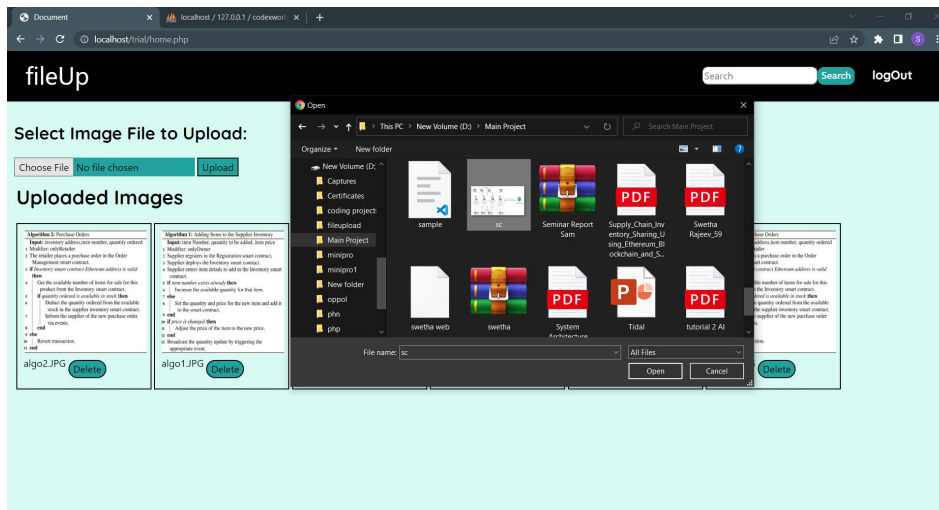

Figure 2: Home Page.

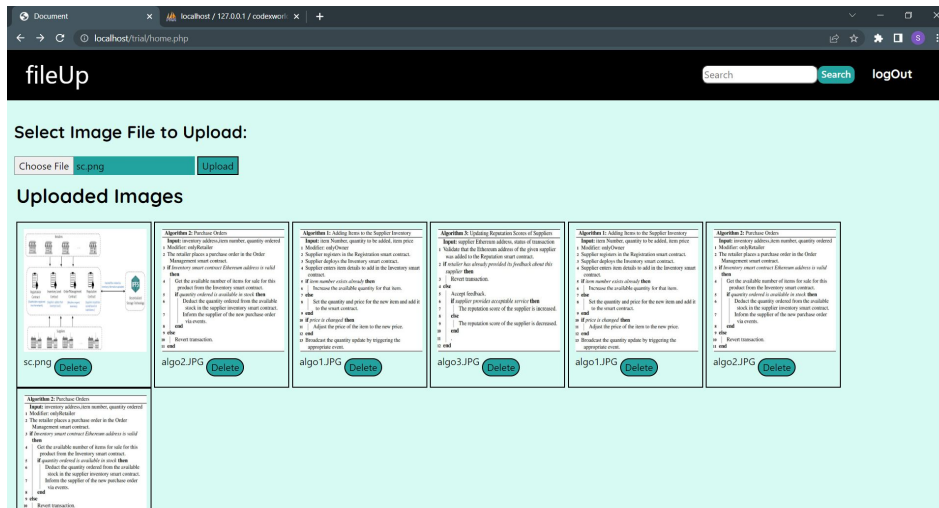

Figure 3: Choosing file.

Figure 4: Click Upload.

Figure 5: Uploaded.

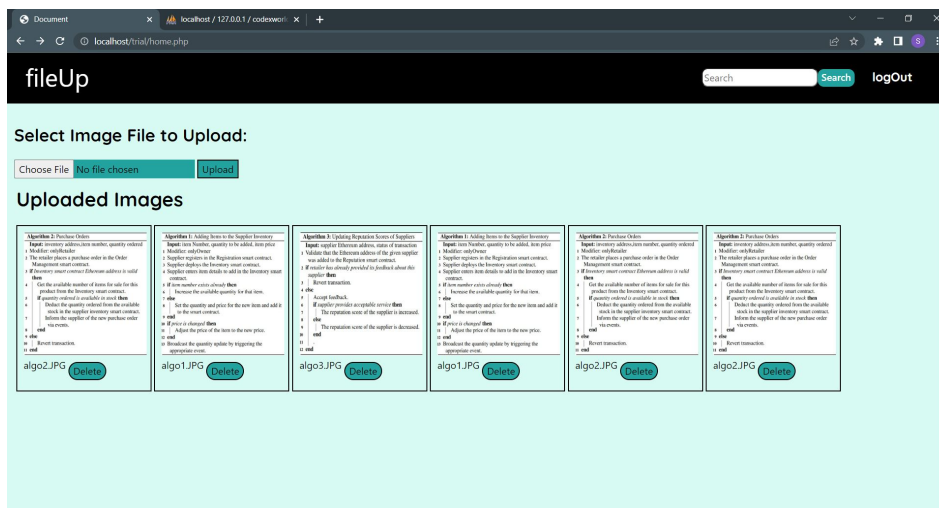

Figure 6: On Clicking Delete Button.

Figure 7: File Deleted.

3   Summary

FileUp is a web-based storage service that enables a user to store and retrieve files easily whenever and wherever they are, and also for easy deletion and retrieval of the data pertaining to any device in which it is being used.
